

MURPHY RADIO LIMITED  
WELWYN GARDEN CITY, HERTS

*murphy*

**H**ERE are some fine  
Murphy television and radio  
sets. Which are you going to choose?  
The most expensive set? Yes—if you can pay  
the price. What about the cheaper sets? They are  
cheaper for one reason and another, but *not* because we  
have sacrificed anything essential. Make no mistake. Even  
the cheapest Murphy is a good set, or we wouldn't make it.  
Price is one consideration; but there are others. Go to your  
Murphy Dealer and look at a number of sets. Sit down and  
try to judge performance. Take your time. Ask questions.  
But be a bit wary of coming to 'final' conclusions off your  
own bat. Judging a television or radio set calls for a lot of  
skill and experience. Your Murphy Dealer has both.  
That's why we chose him. That's why it's worth  
listening to what he says. Your Murphy Dealer  
knows television and radio backwards,  
forwards and inside-out. He's  
also a man you can trust.
