

**T**HE **A122C** is the Console version of the A122 Baffle Set. In its external appearance this model represents a somewhat new approach to Console cabinet design. The shallow depth avoids box resonance and thus ensures a very good quality of reproduction on the low notes which is further improved by the use of a 10" speaker. Flywheel tuning is fitted and provision is made for a gramophone pick-up; this can be left permanently plugged in and by the turn of a switch can be cut out of the circuit.

The Cabinet has richly-figured golden mahogany for the top and instrument panel contrasting with the dark wood of sides and front. Gold fabric covers the speaker.

#### **A122C**

4-valve superhet receiver for A.C. Mains. 200-250 volts. 50-100 cycles. Wave-ranges 16-50 m., 200-550 m., and 1,000-2,000 m.

**Circuit** Single-preselector aerial circuit with high efficiency coils; frequency changer; I.F. amplifier; detector, fully delayed A.V.C. rectifier, and L.F. amplifier; output pentode with inverse feedback for distortion cancellation and response correction. A 10" high quality Permanent Magnet speaker is employed.

**Valves** Mazda valves are used, type numbers TH41, VP41, HL 41DD, PEN 45, UU6.

**Controls** Right: Tone and on/off switch. Right Centre: Volume. Left Centre: Flywheel Tuning Control. Left: Wave range and Gramophone Switch.

**Consumption** The power consumption of the receiver is approximately 57 watts.

**Size** HEIGHT: 29". WIDTH 25". DEPTH 10".

**CONSOLE**

**W**HY do people choose a Console model? Because they want a fine piece of furniture? Because they want something that can stand on its own feet? Because they want a better quality of reproduction? Well, all of them are good reasons and the A122C will, we hope and believe, satisfy you on all three counts. The high fidelity of the radio circuit is enhanced by the large baffle area of the front and the exceptionally narrow "fore and aft" dimensions. The appearance of the A122C is unusual but that's nothing unusual in Murphy cabinet design—if we make ourselves clear. We think it is a beautiful looking set and we know it is a good one.
