ON the dial of the Murphy are marked the actual station wave-lengths found in any daily paper. You turn the dial to whichever station you want, and—there it is—the programme coming in delightfully clear and loud.

I have designed the Murphy so that *anyone* can use it. A little child can tune it quite easily. There is only one tuning control. Selectivity is ample for cutting out Regional Stations.

Ask your usual Wireless dealer for particulars

MAKING WIRELESS SIMPLE

*** I HAVE WRITTEN A BOOK ENTITLED "MAKING WIRELESS SIMPLE," which gives you a simple explanation of how broadcasting works. It also contains brief particulars of Murphy sets. I shall be pleased to send you a free copy on application. In writing for this booklet will you kindly mention the name of this paper!

IT'S good, when the evening comes, to sit by the fire and listen to the wireless just for the pleasure of enjoying good reproduction. At least I find it so, and I believe most ordinary folk do. Of course, some people are keen to have plenty of foreign stations, and with a Murphy they can always get a good bunch. But primarily we believe that people listen to their wireless set to enjoy the beauty of tone. That is why we make quality of reproduction one of our most important aims in designing Murphy sets.

MODERN HOME

MURPHY RADIO

YOUR wireless set should not be a "gadget" which only "Father" can work. It should be something which can be used and enjoyed by everybody in the family.

That is why I make it my business to see that all Murphy sets are extremely simple to use, cheap to maintain and always reliable. The constant high standard of reproduction is an outstanding feature of all Murphy sets.

Ask your nearest Murphy dealer for a demonstration.
