

murphy 192

The 192 is a compact 5-valve mains-driven superhet employing multi-purpose valves, made in three styles: one for A.C. only, one for A.C. or D.C. and one special long-wave version for A.C. only.

TA192: for A.C. mains only (90-160 and 190-250 volts, 40-100 cycles). One medium and two short wavebands.

TU192: for A.C. or D.C. mains (190-250 volts D.C. and 190-250 volts A.C., 25-100 cycles). One medium and two short wavebands.

TA192L: for A.C. mains only (90-160 and 190-250 volts, 40-100 cycles). One long, one medium and one short wavebands.

WAVE RANGES: TA192 & TU192: M.W. 560-185 metres (535-1630 Kc/s).
S.1. 120-36.6 metres (2.5-8.2 Mc/s).
S.2. 37.5-13.33 metres (8.0-22.5 Mc/s).
TA192L: L.W. 970-2050 metres (146-310 Kc/s).
M.W. 184-576 metres (520-1630 Kc/s).
S.W. 16.7-51 metres (5.9-18 Mc/s).

VALVES: Mazda 10CI, 10F9, 10LD11, 10P14, U404.

CONTROLS: Left to right: volume and on/off; tuning, waverange.

CONSUMPTION: TA192 and TA192L — 38 watts (approx.).
TU192 — 39 watts (approx.).

DIMENSIONS: 14 in. by 6¼ in. by 10½ in. tall (35.6 cms. by 15.8 cms. by 25.7 cms.).

WEIGHT: TA192: 12 lb., 5.5 Kgs. TU192: 9¾ lb., 4.5 Kgs.

survival of the fittest

Climate is the enemy of radio. Damp, heat, dusty dryness, icy cold—they can not only spoil your radio reception but slowly—or quickly!—destroy your set. In many parts of the world a radio has to be very tough merely to survive. This Murphy *is* tough. Small and low priced, but mighty tough. It survives. It is built to work just as well in Calcutta heat, Borneo damp, Siberian cold or Chilean dryness. *And it is built to go on working well.* That's the point. It is not one of those fair weather friends that looks and sounds good for the first few months and then cracks up. It should last you for years, and years—and years.

The 192 will give you a selection of all the stations you normally listen to and many more as well, and the tuning drive makes tuning on short waves very simple. Reproduction? Good by any standard! Outstanding—when you consider the size of the set. Compare it with the reproduction of other sets of the same size. We believe you will be very surprised at the difference. As for its looks . . . well, you are the best judge of them. *We* think this set is handsome, but “one man’s meat is another man’s poison.” If you don’t like the looks you can always shut your eyes and listen, can’t you! After all’s said and done, that’s what you buy a radio set for—to listen to.
